👤 Personal Statement

A meticulous and adaptable student invested in the future innovations that technology can bring. Seeking an opportunity at a company to be an introduction to the world of work, develop my skills and provide a strong start to a career that actively contributes to the success of personal, team and company goals. Keen to learn and improve myself whilst striving for excellence.

</> Projects

ChemWeb ↗

Computer Science NEA project

Creating a full stack website using Svelte and Prisma ORM. Utilizing JWTs for verification
